

MUHAMMAD ZAIN SHABBIR

PROFESSIONAL SUMMARY

As a **Junior Data Scientist**, I help organizations unlock the value hidden in their data. My expertise in data cleaning, mining, visualization, and predictive modeling ensures that decision-makers have reliable insights they can trust. Whether it's improving business processes, understanding customer behavior, or forecasting future trends, I provide clear, data-driven solutions that deliver impact.

What sets me apart is my ability to connect the technical with the practical — translating complex datasets into simple, actionable insights. I've worked across different industries, building dashboards, predictive models, and analytical frameworks that empower teams to make smarter, faster decisions.

If you're looking for someone who not only understands the numbers but also knows how to turn them into strategies that drive results, I would be an excellent fit for your team.

WORK EXPERIENCE

DevelopersHub Corporation – (Remote), PK

Data Science Intern
May 2025 – Sept 2025

At DevelopersHub, I gained practical, hands-on exposure to applying data science techniques in a professional environment.

- Prepared and cleaned raw datasets to ensure high-quality inputs for analysis.
- Conducted exploratory data analysis (EDA), identifying trends and anomalies that shaped project directions.
- Built and tested machine learning models (classification, regression) with Python and Scikit-learn.
- Designed dashboards and reports to present findings clearly to technical and non-technical stakeholders.
- Collaborated with senior data scientists, applying best practices in real-world data projects.

Group of Resources – Lahore, PK

Junior Data Scientist | Data Analyst
Feb 2024 – Present

- At GOR, I focus on transforming complex datasets into predictive insights that support business decisions. My work ensures that management can move from guesswork to strategy with confidence.
- Built interactive dashboards (Power BI, Tableau) that allowed leadership to track KPIs in real time.
- Applied predictive models in Python to forecast growth and optimize campaigns.
- Conducted A/B testing and statistical analysis, helping the team refine marketing strategies.
- Collaborated with decision-makers to integrate analytics directly into planning and execution.

Aservus – Remote (UAE)

Data Mining & Data Cleaning Specialist
April 2023 – July 2025

At Aservus, I ensured clients had clean, structured, and meaningful datasets to base their business growth strategies on.

- Designed automated pipelines to collect, clean, and organize lead generation data from multiple sources.
- Performed data wrangling and normalization, reducing inconsistencies and improving reliability.
- Applied clustering techniques to segment customers, giving clients a clearer view of high-value markets.
- Produced data quality reports and dashboards that helped clients focus resources where they mattered most.

Data Science Internship (HP Life + DigiSkills Projects)

Data Science Intern | Data Analytics & Machine Learning
Dec 2023 – Feb 2024

Through structured projects, I applied my growing technical skills to real-world problems.

- Worked with diverse datasets for data cleaning, visualization, and exploratory analysis.
- Built introductory ML models (Scikit-learn) to test predictive outcomes.
- Applied BI tools and reporting to present findings clearly.
- Completed projects using Agile methodology, developing a habit of iterative, results-focused work.

RELEVANT SKILLS

- Python
- SQL
- Java
- Data Mining
- Data Modeling
- Business Intelligence (BI)
- A/B Testing,
- Big Data
- Statistical Data Analysis
- Agile Project Management
- Scrum
- Competitive Analysis
- Predictive Modeling
- Data Visualization
- Large Language Models (LLM)

TOOLS

- Power BI
- SQL
- Microsoft Excel
- Tableau
- MongoDB
- Git
- Confluence
- Chat bot
- Google Cloud Platform (GCP)
- Ticketing Operation
- Slack
- Regression Testing(Manual)
- CRM
- Project Management
- Canva

EDUCATION HISTORY

Bachelor of Science in Computer Science,
Lahore Garrison University
2021

ICS- Intermediate
Punjab College of Information Technology
2013

Matriculation – Computer Science
Army Public School and Colleges System
2010
